A4 size - \$25

BIO

Carolyn Harris founded Telling Tales to ensure people's life stories do get told...

Carolyn's work in life stories began 25 years ago with the first documentation of a client's life story through to the publication of it. Since then Carolyn has been involved in many projects and in particular several years recording life stories for patients at the South Auckland Hospice.

Carolyn's own family's life experience of stories gone untold has further reinforced the importance of telling our tales sooner than later.
